YOGA IN THE PARK

Shannon O'Brien

Terry Iman, stretches at Okecheelee Park. He says what he does is the "intellect of the physical," better known as yoga. He said the ability to be this flexible in yoga depends on factors such as how early you begin practicing, how much time you devote to it and how flexible you are naturally. He always practices yoga outside and has been coming to Okecheelee park for several weeks. He also said the stretches are coordinated to breathing and the first thing you learn in yoga is how to breathe properly.
